Subject: First Truckers Working Group meeting, March 1st

Hello everybody, and thank you for volunteering your valuable time to meet and work together towards the goal of improving the working conditions for truckers at the Port of Oakland. I'm hoping that by sitting down and talking out issues we can obtain mutually beneficial results.

The first step is opening communications with each other, so I have reserved the Board Room here at the Port of Oakland on March 1st from 11:45 to 1:15 for the first meeting of the Truckers Working Group. Lunch will be served starting at 11:45, and the meeting will start at noon.

I'd love to invite every trucker to participate in this meeting, but I think it's best to keep the group small so that we can end up with a more focused discussion. I ask that the truckers in this group send me agenda items that you'd like to discuss, as this meeting is for you. I will prepare an agenda before the meeting based on your input. I have already received input on the issue of drivers license duplication and improper use of SCAC codes.

Let me know if you have any questions before the meeting.

Chris Peterson
